

Butterflies of Wychwood Forest

You could find 34 butterfly species in the Wychwood Forest area.

Here are the butterflies you could find in

September

COMMON & WIDESPREAD 'WHITES'

ORANGE-TIP on Ladies Smock, Garlic Mustard

Wing-tips are rounded - orange for the male, grey for the female. Both have blotchy green 'camouflage' underside.

SMALL WHITE
Various Crucifers

Grey/black marks/smudges at the wing tips, don't extend along outer edge.

GREEN-VEINED WHITE
Garlic & Hedge Mustard

Damp, lush areas. Similar to other whites but has streaked, greeny-grey lines on underside.

LARGE WHITE
Various Crucifers

Largest black marks at wing tips, continuing along the outer edge. in an unbroken, L shape

BRIMSTONE
Purging/Alder Buckthorn

Buttery or greeny-yellow colour. Pointy wing-tips. No black. Female is paler.

The white butterflies can be tricky to identify. If in doubt, don't record it, ...you'll see another one! You can also find ID guides online.

GRASSLANDS

MEADOW BROWN
Grasses, bents, fescues

Medium. Dusty brown with orange 1 white dot in black circle.

DINGY SKIPPER
Vetches and trefoils

Very rare. Small, brown, indistinct markings

COMMON BLUE
Bird's-foot Trefoil

Blue, clear white border. Often near its foodplant. Female is brown not blue.

BROWN ARGUS
Geranium/Cranesbill

Small, Brown with strong orange 'lozenges' on all wing edges

MARBLED WHITE
Red fescue

Large butterfly. Black & white chequerboard pattern

DARK GREEN FRITILLARY Dog-violet

Large, orange & black, white dots on underside. On chalk grass w/scrub. Unusual to find in this landscape.

CLOUDED YELLOW
Clovers, nectar-sources

Uncommon migrant. Looks golden in flight with black wing tips.

SMALL HEATH
Fine grasses, fescues

Very small. Dusty, orange w/ rounded wings. Always rests with wings closed and short white streak always visible.

ESSEX SKIPPER
Cock's-foot

Tiny, orange, triangular. Very similar to Small Skipper. Underside of Antennae tips are **jet black**

SMALL SKIPPER
Yorkshire-fog

Tiny, orange, triangular. Very similar to Essex Skipper. Underside of antennae tips are **orange**

Tick-off the butterflies you see. Please enter your sightings using the free **iRecord Butterflies app** from iTunes or the Google store

These Skippers are almost identical. To learn, Google "skipper identification"

SCRUB, HEDGEROWS & GARDENS

RED ADMIRAL
Nettle

Big, bold, dark butterfly with orange or red marks

GREEN HAIRSTREAK
Rockrose, Gorse, Broom

Our only green butterfly. Perches with wings closed on shrubs

HOLLY BLUE
Holly, Ivy

Pale blue. In gardens, parks, churchyards. No orange on underside

COMMA
Nettle and currants

Our only butterfly with a wavy edge. On scrub woodland edges.

RINGLET
Lush Grasses

Dark with white border. Underneath it has white ringed eyes. On scrub.

PAINTED LADY
Thistles and Nettle

Migrant. Big, orange w/black and white tips. Grey-ish underside

PEACOCK
Nettle

Only butterfly with big colourful eye-spots

SM. TORTOISESHELL
Nettle

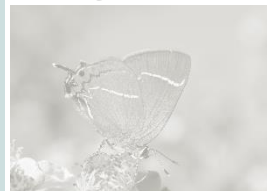

Anywher with nectar. Rich Orange and black markings. Plus blue dots

GATEKEEPER
Grasses, bents, fescues

Orange with brown. 2 white dots in black circle.

WHITE-LETTER HAIRSTREAK - Elm

Grey-brown. Black line inside orange edge. Flits around elms. More orange/brown than Purple Hairstreak.

WOODLANDS, RIDES & CLEARINGS

WHITE ADMIRAL
Honeysuckle

Big. On woodland and clearing edges

PURPLE EMPEROR
Sallows in sun

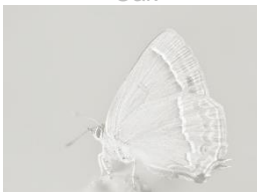

Very big. Flies at top of canopy. Mud-puddles.

SILVER-WASHED FRITILLARY - Violets

Large & orange. Usually in sunny oak woods & rides. Glides in flight.

PURPLE HAIRSTREAK
Oak

Small, grey triangle at top of sunny oaks. Look on sunny evenings.

SPECKLED WOOD
Grasses

In sun-speckled wooded clearings with grasses

ROUGH, SHRUBBY GRASSLAND

SMALL COPPER
Sorrel and Dock

Small & striking. Orange forewing, brown hindwing

LARGE SKIPPER
Cock's-foot

Orange w/lighter squares. Roosts on tall scrub & twigs.

BROWN HAIRSTREAK
Blackthorn

Medium, brown but looks orangey in flight around uncut blackthorn. More likely closer to Oxford.

BROWN HAIRSTREAK
Egg on Blackthorn

Tiny white egg, usually at join with new growth or thorn. Search Blackthorn in winter.

BLACK HAIRSTREAK
Blackthorn

Rare. Small. Black dots in orange border. Woodland edges, hedgerows & thickets.

SHRUBBY BLACKTHORN
